Take Back America Now!

America has been hijacked by the Administration, unscrupulous people and special interests that are not looking out for us! They do not care about you or me or our constitutional rights. It doesn't matter if your primary cause is peace, the economy, the Constitution, the environment, health care, sound fiscal policy, truth or human rights. You have been impacted.

For example, It is a fact that we all have to pay taxes which some believe in itself is unconstitutional. To add insult to injury, those tax dollars that most of us pay, are being spent on yet another unconstitutional tragedy – the Iraq War.

If you feel that your constitutional rights are eroding away and perhaps disappearing all together, then help us take America back. Speak out, be heard! Make your viewpoints known.

Let's take America and our Constitution back now. We can do it, one person at a time. You count and what you think counts and matters. Let's tell Washington that we are reclaiming our power as Americans and that we are tired of being manipulated and that we want to be heard.

List of Speakers will be on the website
